WORK EXPERIENCE

Salt Lake County

February 2022 – Present

Web Developer Intern

Salt Lake City, UT

- Delivered **HTML**, **JS**, and **jQuery** web pages that conformed with the county's brand and design specifications
- Collaborated with the web team to migrate the county's websites into a new website design
- Implemented a custom calendaring system using **JavaScript** and **REST APIs** that was integrated into a new design for the county's websites
- Applied **software design patterns** to provide robust and scalable software
- **Designed** and **developed REST APIs** for front-end consumption

Mondelez

September 2018 – June 2021

Warehouse Worker

Salt Lake City, UT

- Assisted in the loading and unloading of products for delivery
- Used **SQL** and querying software to track and facilitate data and record-keeping

Kellogg's

May 2014 – July 2018

Inventory

Salt Lake City, UT

- Used **Excel**, and **SQL** to maintain an accurate record of how the inventory moved around the warehouse
- Kept inventory using warehouse management software to query and update stock

EDUCATION

Weber State University
